

Sunday
Aug. 29th.

Dear Vickie & Jim,

Have just received your last letter and had better get a note written so you will be sure to receive it before you head home - it will be quite a transition back to "keeping house" won't it honey! you didn't live in the new place too long before you went to London did you? So it will still be new -

We've had a rather easy day - this morning it began to rain just as they started picking peaches so didn't have many to handle. Ken & Debbie came by while ago to get some for her to can & we had a good visit - Also had a nice time while Edna was here. Spent Sat. at the beach, just us ladies!) a family get together on Sunday - brunch with Bevyl on Monday and lunch in Lyford Tues. as we took Edna back to meet Nealgut for her flight home Wed -

We're all looking forward to your visit - would like to see Jim too

but understand Mrs. Ostrom
to stay in Wash. and see
his folks when they come
in Oct. - I hope it works
out for Mary when she again
lives in Wash. - And you
two will have to get used
to life in the native
capital again - Europe must
seem far away from it all.
How close to the situation
in Lebanon have you felt
there? I hope the ph^o
withdrawal will be successful
in cooling the Middle East
but have fears that it won't.

Let us know yours plans
as they develop and we'll
see you soon!
